The resurgent risks of nuclear war and unresolved climate danger have caused the Bulletin of the Atomic Scientists to keep the Doomsday Clock set at 2-minutes to the apocalyptic midnight hour. This is as close to global Armageddon as the clock has been since it was introduced in 1947. By gathering on August 6, we will use the visible power of our presence to transform U.S. policy from violence to peace. JOIN US!

Meet at the corner of Vasco Rd. & Patterson Pass Rd. in Livermore. Hear from A-bomb survivor Nobuaki Hanaoka, famed author and whistleblower Daniel Ellsberg, and other guest speakers and musicians. Then, we will proceed to the Lab's West Gate where those who choose may risk arrest.
