Apology to a Whale: Words to Mend the World

Human beings are killing the planet and themselves in the process. Cecile Pineda asks a simple question: Why? An urgent reframing of current ecological thinking, *Apology to a Whale* addresses what the intersection of relative linguistics and archeology reveals about the present world's power relations, and what the extraordinary communication of plants and animals can teach us. This masterpiece of creative nonfiction is a wild ride on the frontiers of archeo-linguistics in search of the greatest killer on Earth—us.
